EMPLOYEE

As an employee, I want to have a clear overview of the learning and training available to succeed in my role. As well as access to my manager when needed, to review progress.

MANAGER

As a manager, I need insights on progress and a simple way to check-in to help my team improve.

People Development that fits your culture

360+ Feedback
Build fully automated 360 degree feedback reviews for competence evaluation, for project feedback or for your learning & performance process.

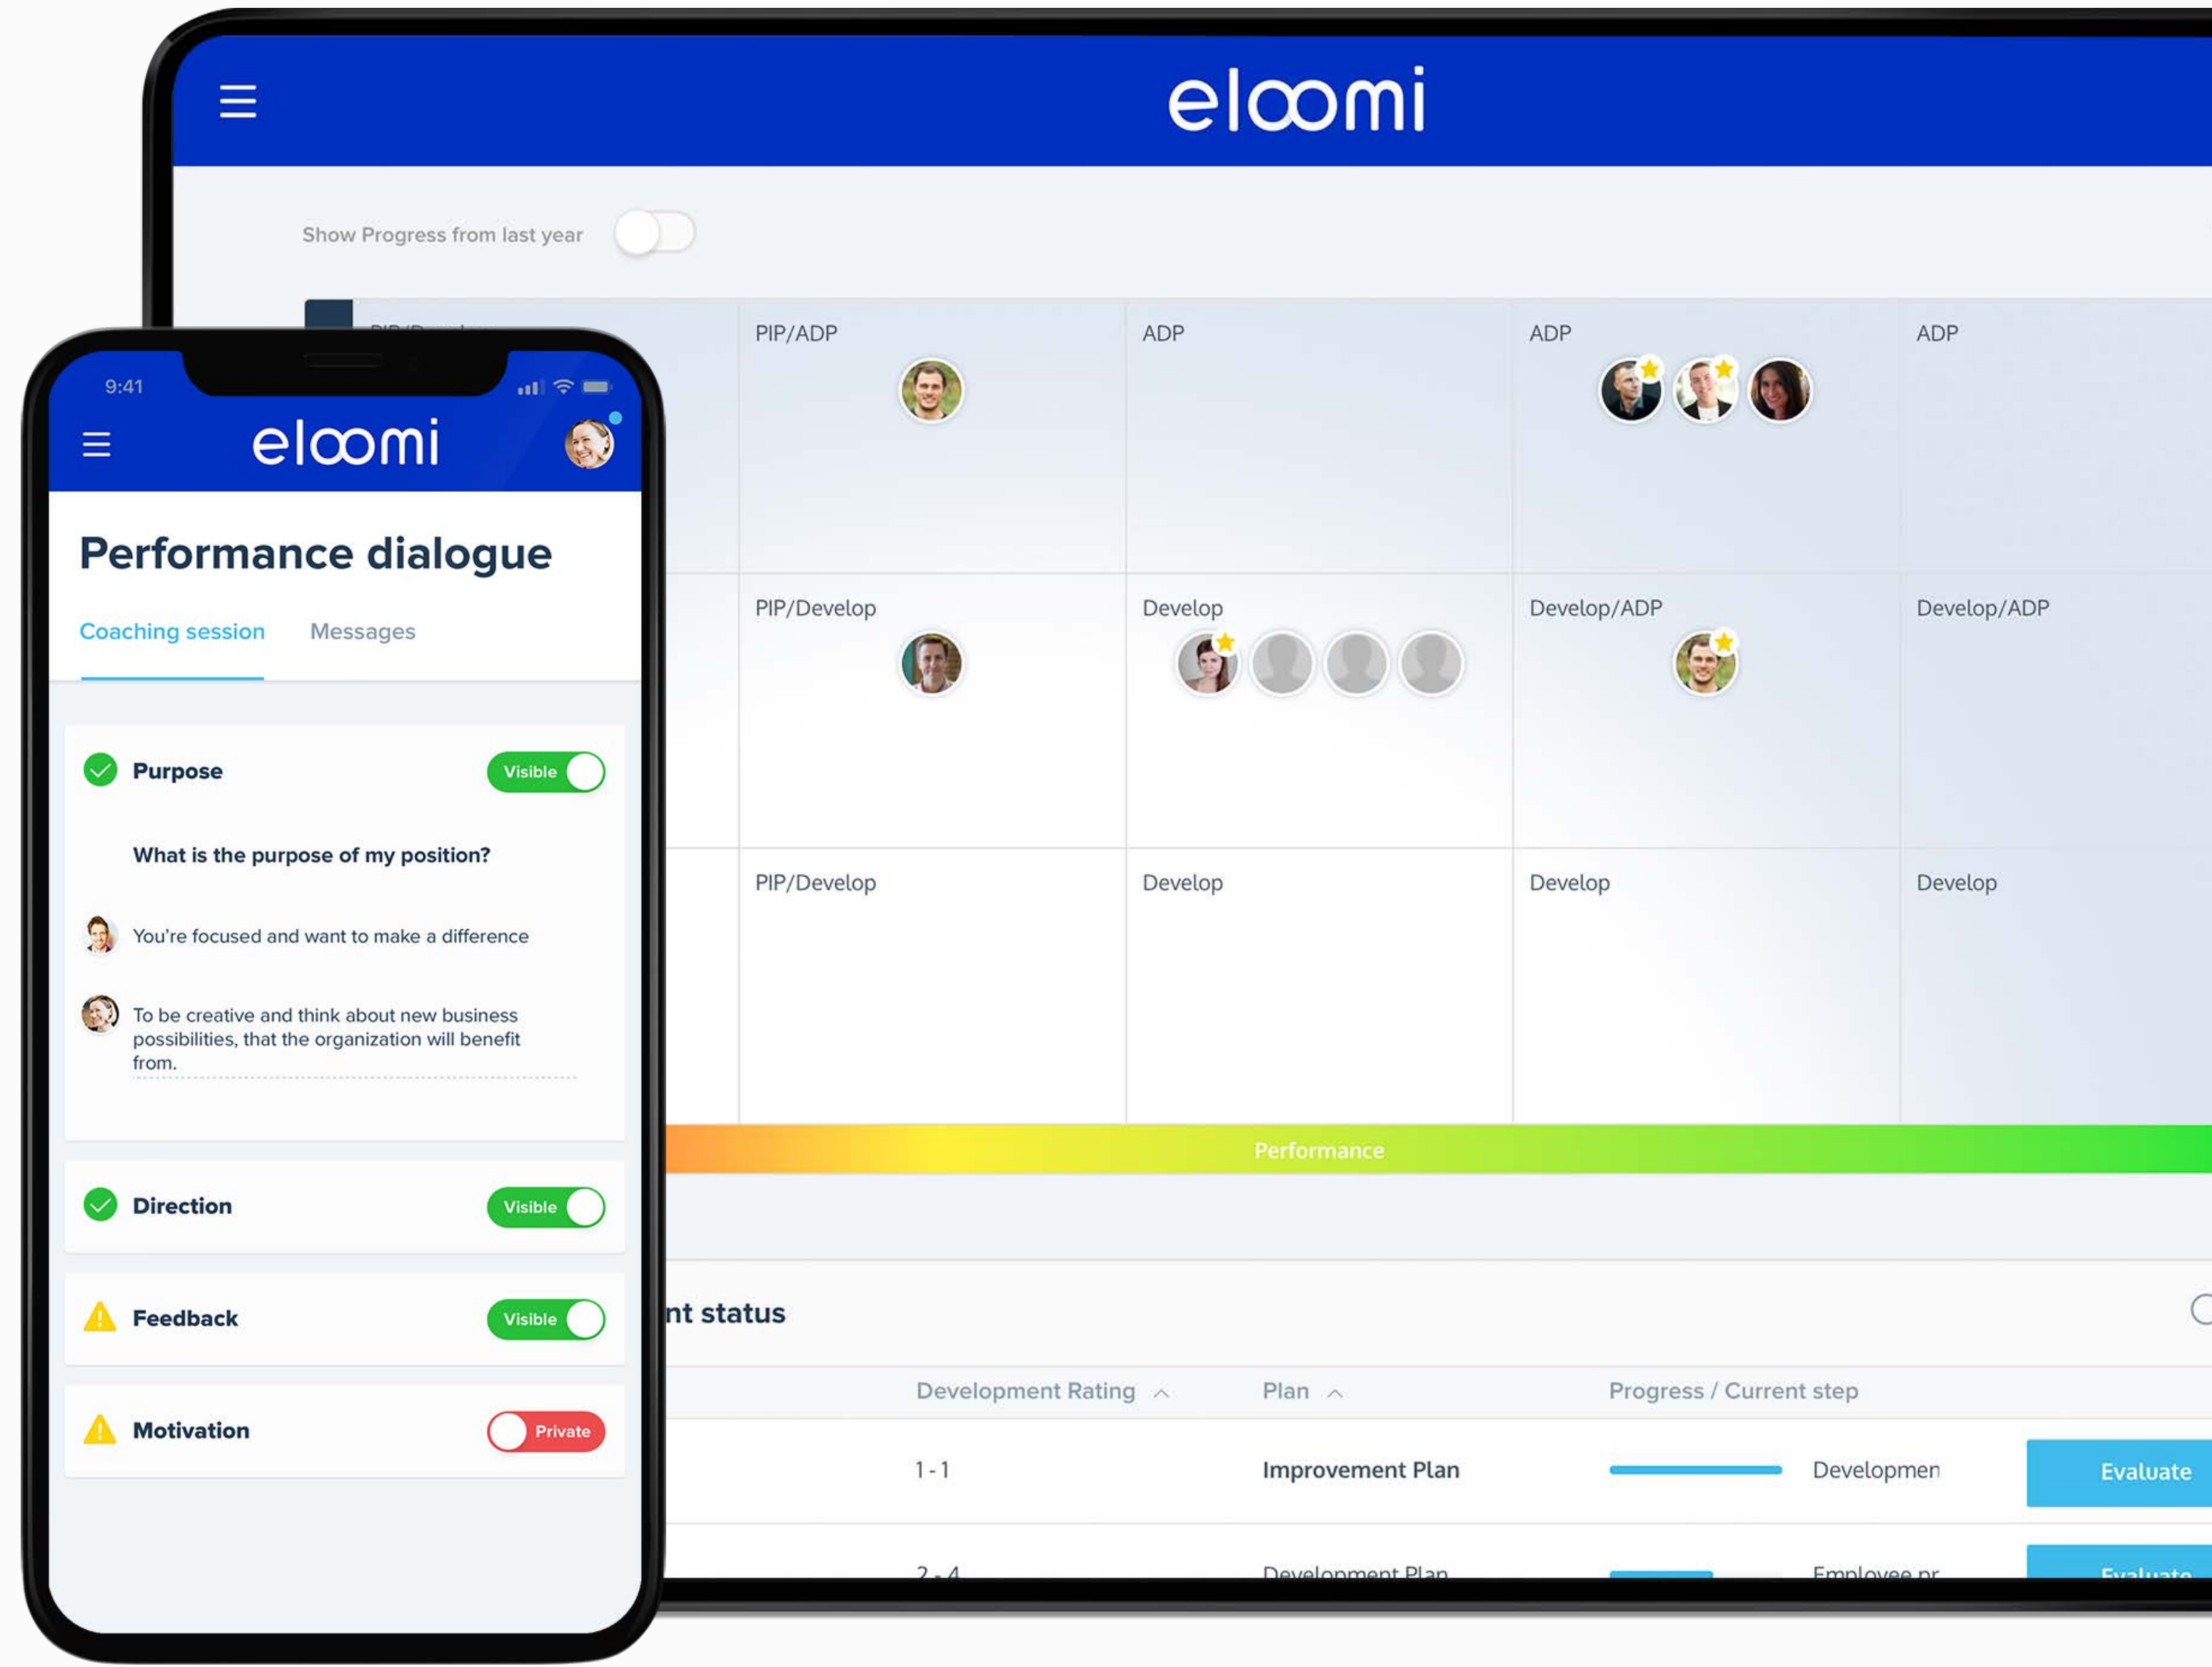

Objectives & Check-In
Help employees stay productive and feel valued through quick employee-manager conversations. Build your own or use the built-in templates.

Performance Appraisals
Make your annual review a living, continuous process that helps your employees understand their roles in the company's success. Give clear directions on how to increase skills, advance careers and develop stronger relationships.

Operational excellence with Checklists

Operational Checklists

Gain consistency in execution and reduce time spent on following up on routines.

Quickly assign one-off or recurring Checklists. Optionally add points for completed tasks and invite feedback and comments.

The image displays two screenshots of the eloomi mobile application. The larger screenshot on the left shows a 'Checklists Reports' screen for an 'Onboarding checklist'. It features a table with columns for 'Employee', 'Submission', and 'Compliance'. The data is as follows:

Employee	Submission	Compliance
Samir Lundahl	24 / 24	Compliant
Eileen Marine	24 / 24	Compliant
Frida Jansson	24 / 24	Compliant
Kayla Singh	24 / 24	Compliant
Abdul Moynihan	12 / 24	Not-submitted
Will Gerry	6 / 24	Not-submitted
Daniel Williams	0 / 24	Non-compliant
Ingrid Weisser	0 / 24	Non-compliant

The smaller screenshot on the right shows a 'Monthly store evaluation' form. It includes a 'Store control' section with a score of 30/40. The form lists several items for evaluation:

- Temperature control**: Temperatures measured, corrective actions is stated + temperature states on all refrigerators. Score: 10. Status: Not-compliant (indicated by a red X).
- Date**: Remove all items that have expired on date and make sure correct registration of these. Score: 10. Status: Not-compliant (indicated by a red circle).
- Tasting samples**: Procedures for safety mirrors are included. Alu Plates are used everywhere underlay. Tasting samples are set according to guidelines. Score: 10. Status: Compliant (indicated by a green checkmark).

At the bottom of the form, there is a text input field labeled 'Add a task comment' and a 'Post' button.

ADMINISTRATOR

I need a simple way to create and share relevant content (self-built or purchased), send out surveys, and manage blended learning programmes.

HR

We genuinely want to provide people with learning, growth and development.

We need process flexibility to meet changing business needs and data to make informed decisions.

Conduct surveys to get a pulse on the organisation

Surveys & Engagement

Quickly send out surveys to get feedback and visibility across your company. Understand what's driving engagement, identify improvement areas, and turn insights into actions or KPI's.

The image displays two views of the eloomi platform. On the left, a smartphone shows the 'Employee survey Q4' interface. It features a progress indicator for 'Question 1 of 14' and a slider question: 'How do you feel about our work schedule?' with a 'Next' button. On the right, a desktop dashboard titled 'Engagement survey' provides a comprehensive overview. It includes a 'Company Engagement 2019' section with four key metrics: Participation rate (87.5% / 28), Participation target (93.8% / 30 / 32), Engagement Index (72.5%), and Deadline (10/09/2019). A separate 'Engagement Index' widget shows a gauge with a value of 82.5. At the bottom, a 'Questions overview' line chart tracks engagement scores over time, with a specific data point highlighted at 83.5.
